ACTIVITY-BASED LEARNING (ABL) ASSIGNMENT

CONSOLIDATED CASE STUDY REPORT

Student Name	A. Balaji
Roll Number	26001374
Branch / Section	CSD-1 (Sec-9)
Course	Web Development
Academic Year	2026·2027

Selected Case Studies

- Sweet Crumbs – Bakery & Patisserie
- TechZone – Technology Products Website
- MediCare – Medical Services & Appointment Booking

Submitted in accordance with the Web Development ABL circular dated 15-10-2026.

1. Introduction

This report presents three selected Web Development ABL case studies. The supplied screenshots are grouped by project and included as visual evidence of the webpage layouts and visible features.

2. Case Study Overview

CASE STUDY 1: Sweet Crumbs – Bakery & Patisserie

A bakery and patisserie website presenting freshly baked products, custom cakes and bakery categories. The screenshots show the landing page, product highlights and product cards with names, descriptions and prices.

Visible sections and features

• Home/hero section with bakery branding and navigation

• Bakery categories such as celebration cakes, pastries, cookies and custom designs

• Product showcase featuring Chocolate Dream Cake, Strawberry Cupcakes, Butter Croissant and Choco Chip Cookies

CASE STUDY 2: TechZone – Technology Products Website

A technology product showcase website organized around laptops, smartphones, accessories and smart devices. The screenshots show the home page and product listing sections for laptops and smartphones.

Visible sections and features

• Home page introducing the technology store and product categories

• Laptop cards with product descriptions, prices and key specifications

• Smartphone cards with storage, display, camera and connectivity highlights

CASE STUDY 3: MediCare – Medical Services & Appointment Booking

A healthcare website presenting medical services and an appointment-request workflow. The screenshots show the home/services page, patient registration form and available appointment slots.

Visible sections and features

• Healthcare landing page with medical services such as cardiology, neurology, dentistry and pediatrics

• Patient registration form with personal details, doctor selection, date, time and reason fields

• Doctor-wise appointment slot display
